FlyTV Express M5 MST-TA Hybrid EX

Mobile digital and analog TV tuning in a single versatile ExpressCard

One card is all you need to enjoy high quality TV on your PC! The FlyTV Express M5 MST-TA Hybrid lets your laptop PC watch and record high definition digital TV programs anywhere, anytime - just plug it in and connect the portable antenna for instant mobile entertainment! It can also receive analog TV programs, and supports worldwide analog TV and stereo sound standards through its silicon tuner. Video capture from external video sources is made possible through the S-Video input, allowing you to use your PC as a video monitor for your camcorder or game console!

Slim, portable and powerful - the FlyTV Express M5 MST-TA Hybrid is the one card that satisfies all your TV and video capture needs!
